## Texas Auto Dealer Case Study 050912

*“Today, as the owner of a successful General Motors dealership, I'm selling some of the best cars money can buy. The values I learned from my father, his work ethic and the dreams he had for our family are at the root of my success with GM today. In fact, the quality of the training and support I received from GM shows me that they too share my father's values. You know, I bet my Dad would have made a heck of a GM dealer..”*

*Domingo Vara Jr., GM Dealer  
San Antonio, Texas*

**Over \$800,000 ⇒ 20 year savings**

*Value transfers to a  
well lit auto.*
