Sustainable Project Management By ADG Eco Dealers

ADG Eco has the resolution for Utility Users to **use less power**, Use ADG's Finance services and engage with top Dealers (Top Business people—You)

Dealers will work with the Utility user to **Swap inefficient** metal halide and high pressure sodium or fluorescent with our **ADG Eco Induction Lighting** and **LED** or other 21st century equipment with our **CRA -no cost for equipment program..**

Sustainable Project Management Professionals from our TEAM @

ADG engage with your team to review, suggest and implement the right Solution based programs.

We have the resources to Change your client's facility NOI @ no capital expenses.

ADG **Authorized Dealers** only sell our Energy Efficient Lighting products.

Take the ADG Challenge ! Dealer Eligibility

Whether you are associated with a small school or a large corporation, a local government or a national association, a community or the business community you could become an **ADG Eco Dealer**.

Request an Application, fill it our and send back.

There are **simple steps** after the review of the application. We have turned away more applicants than accepted. This is our Quality control. This is your opportunity to **Make a difference** in the **Energy Efficiency Environment**.

ADG Eco is looking for the **highest qualified individuals** that understand Business transactions . Do you have an existing company or want to create a start up. We will review with you the requirements to working with the fastest growing segment of energy efficiency reduction/ *Lighting*.

Real Solutions

A TEAM that Responds

ADG Eco products are made to provide each utility user the **Highest Quality**, best performing solution.

ADG Eco Dealers are trained business professionals with back end support from the ADG Factory, National Eco Friendly Lighting Dealers Association, Government Relations TEAM and other Advisory Professionals

Unique to the lighting industry our ADG product is sold **directly through** our **Authorized Dealers** and typically not through the last century distribution methods.

This makes for stronger relationships, better quality projects, higher margins for Dealers and Happy Clients.

ADG Eco innovations

ADG has changed the paradigm as well. What we think a light should be has been improved because of Dealer, customer and factory collaborations.

ADG has **Patent Pending** devices and other Quality Solutions lined up for Dealer to **Deploy & Generate Revenue**.
